Problem statement 1

Online Learning Platform Interface Develop an e-learning website containing course categories, video lesson thumbnails, instructor profiles, course descriptions, learning objectives, and enrollment buttons. Design responsive course cards and progress indicators.

Html code :

```
<!DOCTYPE html>
<html lang="en">
<head>

Problem statement 2

Student Academic Dashboard Create a dashboard displaying student details, semester results, attendance percentages, subject information, examination schedules, and announcements. Use tables, progress bars, cards, and a sidebar layout.

Html code 👍

CS502	Database Management	Prof. Amit Kumar	4	90%

Problem statement 3:

Digital Library Management Interface Design a library website with book categories, book covers, author details, availability labels, search and filter interface elements, and library rules. Use CSS Grid and structured tables for displaying catalog information.

Library Rules & Guidelines
Help us maintain a welcoming place for every reader.
Borrowing Period
Books may be borrowed for up to 14 days, subject to library policy.
Renewals
Request a renewal before the due date if no other reader has reserved the book.
Late Returns
Return books on time. Applicable overdue charges depend on library policy.
Book Care
Keep borrowed books clean and avoid writing, marking, or damaging pages.
Member Account
Use your registered library account when borrowing or returning books.
Respect Others
Maintain silence in reading areas and respect other library users.
BookNest
Your gateway to knowledge and discovery.
